Dougelot appointed governor 348

Y.

Yellow fever at Charleston, 128,160,237

N. B. In making out this index, all articles embraced in the summary of news have been arranged under the country, state, or island, in which the event occurred, or to which it relates. This has been done with a belief that it would afford greater facility in referring to small articles than an alphabetical arrangement.

☞ A proposal was made to accompany this volume and the subsequent one with engravings, upon the condition of subscribers paying punctually at the time their subscription came due, or in advance. A few only sent in their dues, and the project was abandoned as impracticable on that account, without too great a sacrifice.
